

UHF LaundryTag **Hydro series**

UHF laundry tag, based on flexible antenna and woven, special for linen laundry management. The tag can withstand more than 200 industrial washing cycles, with thin thickness, long reading distance, pressure and high temperature resistance. The laundry tag has a unique global identification code, by sewing/hot pressing a tag on each piece of linen. In the entire use of linen, users can do batch reading and check the linen pretty quickly by RFID reader, automatically record the use of linen, washing times.

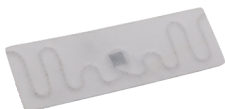

- Model: Hydro LA401
- Dimension: 70 x 15 mm
- Read Range (Fixed Reader) : US: > 11.5 m; EU: > 12.5 m
- Read Range (Handheld Reader): US: > 8.5 m; EU: > 7.5 m

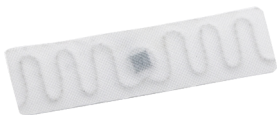

- Model: Hydro LA402
- Dimension: 86 x 16 mm
- Read Range (Fixed Reader) : US: > 13.5 m; EU: > 12 m
- Read Range (Handheld Reader): US: > 10 m; EU: > 8 m

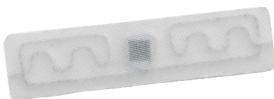

- Model: Hydro LA403
- Dimension: 70 x 10 mm
- Read Range (Fixed Reader) : US: > 10.5 m; EU: > 10.5 m
- Read Range (Handheld Reader): US: > 8.5 m; EU: > 7 m

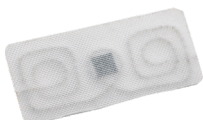

- Model: Hydro LA404
- Dimension: 60 x 20 mm
- Read Range (Fixed Reader) : US: > 11.5 m; EU: > 14.5 m
- Read Range (Handheld Reader): US: > 8 m; EU: > 8 m

- Model: Hydro LA405
- Dimension: 58 x 15 mm
- Read Range (Fixed Reader) : US: > 11.5 m; EU: > 12.5 m
- Read Range (Handheld Reader): US: > 7.5 m; EU: > 7 m

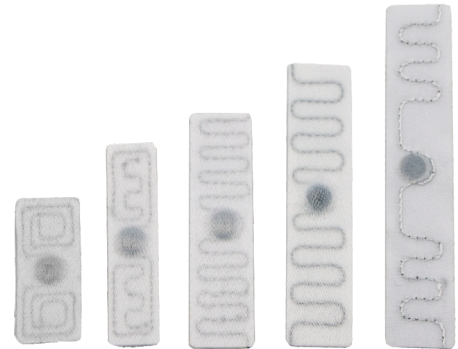

- Model: Hydro LA406
- Dimension: 50 x 12 mm
- Read Range (Fixed Reader) : US: > 11 m; EU: > 12 m
- Read Range (Handheld Reader): US: > 8 m; EU: > 9 m

- Model: Hydro LA407
- Dimension: 35 x 15 mm
- Read Range (Fixed Reader) : US: > 8.7 m; EU: > 7.7 m
- Read Range (Handheld Reader): US: > 6 m; EU: > 7 m

UHF LaundryTag Aqua series

UHF laundry tag, based on flexible antenna and woven, special for linen laundry management. The tag can withstand more than 200 industrial washing cycles, with thin thickness, long reading distance, pressure and high temperature resistance. The laundry tag has a unique global identification code, by sewing/hot pressing a tag on each piece of linen. In the entire use of linen, users can do batch reading and check the linen pretty quickly by RFID reader, automatically record the use of linen, washing times.

- Model: Aqua LA101
- Dimension: 70 x 15 mm
- Read Range (Fixed Reader) : > 13 m
- Read Range (Handheld Reader): US: > 8 m

- Model: Aqua LA102
- Dimension: 86 x 16 mm
- Read Range (Fixed Reader) : > 12 m
- Read Range (Handheld Reader): > 8.5 m

- Model: Aqua LA105
- Dimension: 58 x 15 mm
- Read Range (Fixed Reader) : US: > 12.5 m; EU: > 9 m
- Read Range (Handheld Reader): US: > 8.5 m; EU: > 6 m

- Model: Aqua LA106
- Dimension: 50 x 12mm
- Read Range (Fixed Reader) : > 6 m
- Read Range (Handheld Reader): > 2.5 m

- Model: Aqua LA107
- Dimension: 35 x 15 mm
- Read Range (Fixed Reader) : US: > 6.5 m; EU: > 3.5 m
- Read Range (Handheld Reader): US: > 5.0 m; EU: > 2.5 m

- Model: RC9013-5
- Material: Silicagel
- Application: Hotel linen/Textile product /Hospital Linen and Uniform laundry/Linen rental,etc
- Weight: 1.85g
- ChipType: Alien Higgs 3/9
- Dimensions: 88x6x4mm
- Read Range: 4m
